

Tulsa County ARES
Paul H. Teel, WB5ANX: ARES Emergency Coordinator, Tulsa County
Emergency Communications Frequency Plan
Last updated: May 2026

The purpose of this frequency plan is to provide for maximum and coordinated communications between served agencies during a wide spread disaster.

During a wide spread disaster registered ARES volunteers should **FIRST** check in to the staging net for an assignment.

DO NOT SELF DEPLOY

Agency	Function (* = backup power)	Primary	PL	Secondary	PL	Simplex	Notes
National Weather Service	WX Net - North East Oklahoma *	443.850	88.500			443.850	This is the primary UHF frequency for weather nets
